MANAGER

## PROFILE

My name is Abdulloh, I am a student at MDIST now. I have worked as a manager in my hometown at the restaurant "Vodiy". I have 8 years of experience as a manager. During this period I acquired strong management skills like leading the team, supervising day-to-day operations, and creating a friendly atmosphere among the staff members. While working there I developed effective communication skills and met with successful businessmen. They shared their experience of the systematization of successful business. I want to use the knowledge and experience that I gained from them at a good company or organization to reinforce and strengthen my management skills
